

## **Presentations at the „International Market place“ during TerraTec 2005**

Location: Hall 2, Stand A11

**Start: 13.30 Uhr**

**Lecture by Dr. Ute Pieper, ETLog Health EnviroTech & Logistics GmbH**

### **„Solutions for hospital waste in southern Africa“**

Content:

ETLog Health EnviroTech & Logistics GmbH is presenting the experiences, strategies, obstacles and chances of the DEG supported pilot project “Healthcare Waste Management for rural areas” in the Health District Zeerust / South Africa. Officially the project is integrated in the “National Solid Waste Strategy” of South Africa. An integrated solution regarding the collection, transport, storage, treatment and disposal of healthcare waste for low density areas is developed and currently implemented.
