

## Press Release

Date: 15.02.2008

### **ETLog Health EnviroTech & Logistics GmbH processes waste-management project in Yemen**

*by Andrea Schuster*

**Berlin/Sanaa. ETLog Health EnviroTech & Logistics GmbH is part of the project team engaged in the construction in 2008 of the Al Saleh Medical City in Sanaa. The medical city was initiated by the Yemense ministry for planning and international cooperation and is financed by a private investor from the Middle East.**

The Yemeni ministry for planning and international cooperation has commissioned the German firm EPOS Health Consultants with the inspection of the planning phases for the Al Saleh Medical City. Located on the outskirts of Sana, the units on the site will guarantee optimal medical provision for the population in the Sana region. Here, ETLog Health EnviroTech & Logistics GmbH can call on its long years of expertise in the area of waste, sewage and environmental impact assessment in the health sector. In addition, existing plans will be checked and revised, and their implementation will be monitored. In addition to the area of disposal and the environment, planning, architectural, engineering and medical technology specialists will complete the project team.

ETLog Health EnviroTech & Logistics GmbH is a specialist provider in the healthcare system. The Berlin-based firm acts worldwide as an advisor to clinics, institutions and ministries regarding the disposal of hospital waste, waste management technology, waste water and aids prevention.
